## QVC's Pink Ribbon Broadcast

**QVC** makes doing good feel good. Grab some **Mally Beauty All-Natural Lip and Cheek Tint** made with the moisturizing shea butter and jojoba, or **Dr. Denese Pink Ribbon Advanced Firming Facial Pads**, which combine the exclusive Actizone Firming Factor technology with glycolic acid to visibly help firm the skin. Why you ask?

Well, these brands, among many more, are a part of **Pink Ribbon Beauty** segment on QVC, during which shoppers can choose from a selection of skincare, color cosmetics and hair products, with a portion of the proceeds benefiting the Breast Cancer Research Fund. The two one-hour broadcasts are scheduled to air Tuesday, May 27th at 1 a.m. and 6 p.m.

So there ya go. Give back, help those who need it most, and tune into QVC, because you never know what they might have that you need (or really, really want).

Products from the Pink Ribbon Beauty broadcast will be available through QVC at 800.345.1515 or at [www.QVC.com](http://www.QVC.com) during the month of May while supplies last.
