

# Get ready to bare your soles...

new to the market

ARTEMIS Woman Heel Smoother has finally arrived in Ireland. The revolutionary pedicure appliance which has been a sell out success in the US will resurrect your feet for summer after just one use. The wonder product smoothes callouses and removes dry skin on heels and toes in seconds without using dangerous blades or harsh chemicals.

The Artemis Woman Heel Smoother is a salon-grade pedicure tool. It has special DuraCrystal tips made with aluminium oxide crystals, the same type used in professional microdermabrasion treatments. The tips rotate to remove dry, dead skin effortlessly and painlessly. The dual speed motor allows you to control the pressure applied resulting in a protected and efficient treatment.

Created by women for women, each Heel Smoother comes with a Topaz Foot Butter with finely ground Topaz gemstone crystals, combining the ancient healing art of gem therapy with the invigorating aromatherapy blend of bergamot, tea tree, and lemon essential oils. Blended together with rich moisturizing shea butter, the Irish made cream will keep your feet smoother longer. Artemis Woman donates 2% of profits to support alternative treatments and screenings for women's cancers.

This summer, Artemis Woman Heel Smoother will ensure that you put your best foot forward!
